

STAMPCRETE SUPER STRENGTH COLOR HARDENER

Packaging: 60 lb. Bucket Coverage 100 sq. ft.
27.2 kg. Bucket Coverage 10 m²

STAMPCRETE Color Hardener is specially formulated to be easily incorporated into the durable, abrasion-resistant surfaces, which offer streak-free vibrant colors, providing an attractive and long-lasting finish for any type of traffic. STAMPCRETE Hardeners are longer wearing, easier to maintain and more resistant to the effects of freeze/thaw cycles and salts. Textured surfaces may be implemented with this system to give authentic appearance variations where applicable.

STAMPCRETE COLOUR-SEAL

Packaging: 5 gal. pail Coverage 1000 sq. ft.
18.9 liter pail Coverage 92.6 m²

STAMPCRETE Colour-Seal is a synthetically pigmented sealer that forms a protective coating for concrete based surfaces. Product is a solvent based and creates a solid vivid color while sealing the surface from elements such as weather and staining. Complies with VOC requirements.

STAMPCRETE PATINA STAINS

Packaging: 1 Gallon (3.78 liters)
5 Gallon (18.9 liters) Coverage: See Tech Data Sheets

STAMPCRETE Patina Stains produce a translucent variegated finish, including broad drifts in color, sometimes soft in appearance. This variegation is the reason this method of concrete coloration is chosen. STAMPCRETE Patina Stains are not paints or coatings and do not cover up, but rather work in conjunction with the color of the substrate. Patina Stain has durability, strength, and resistance to the effects of weather and traffic.
